The following is an examiner's statement of reasons for allowance: Schiller (US 4608734, figures 2a, 2b) is the closest art of record and teaches an easy locking buckle structure functioning as a holding tab for manual gripping comprising a male buckle element in the form of a tab 10, being provided with a post 14 extending downwardly from a bottom of one end, and cover 12 on a top, the post being engaged with a socket 20 having hole 16 to receive the post 14 and a holding tab 32' provided at the other end of the male buckle element; and a female buckle element 30 having a hole 26 to receive the pin 24 of a cover 22. The differences are that the female buckle element does not have a hole in the bottom of a conical recess provided slots at its sides and it lacks a plurality of connecting pins for combining to a second cover. There is no suggestion in the art of record to modify the manually graspable holding tab of Schiller to have such structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James R. Brittain whose telephone number is (703) 308-2222. The examiner can normally be reached on M-F 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on (703) 306-4115. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
